#
# I was looking at my LBB collection, and got an idea, so voila!
# Presenting the Traveller Sector Guidebook .cgi script. Creates and returns
# a high-resolution (vector-art) pdf containing the sector data and hexmaps,
# listed subsector by subsector.
#
# Requires:
# - James M. Perkins' Traveller software programs
#   http://traveller.mu.org/archive/software/SW4
# - pstopdf
#   (built in on Mac OSX)
# - enscript
#   (built in on Mac OSX)
# - pdftk
#   http://freshmeat.projects.org/pdftk
# - Paul J. Netherwood's 'full-upp'
#
#
# Using sector tools, the sector data and individual subsector data is
# created, and the PostScript hexmap is generated. Using pstopdf, the PostScript
# hexmap is converted to a pdf. Using enscript, the text sector data is
# converted to a PostScript file.

## DATA SOURCES

The information contained herein was obtained by Long-Range probabilistic observation techniques, the operations and technology of which remain highly classified. Due to quantum probabilistic effects of spacetime, the data contained in this report may represent an actual sector of space. Personnel who are exposed to this report are directed to handle this information accordingly, and to present themselves to Military Intelligence for re-education if required.

## ABBREVIATIONS

Abbreviations are used to describe the following:

Hi	High Population
Lo	Low Population
Ba	Barren
Ag	Agricultural
Na	Non-Agricultural
In	Industrial
Ni	Non-Industrial
Ri	Rich
Po	Poor
De	Desert World
Wa	Water World
As	Asteroid Belt
Va	Vacuum World
lc	Ice-capped
Ca	Subsector Capital

Other abbreviations are also employed for the bases in-system:

N	Naval Base
S	Scout Base
A	Naval and Scout Base Present
B	Naval Base and Scout Way Station Present
W	Scout Way Station
M	Military Base
D	Naval Depot

Other abbreviations are also used for the travel zone of the system:

R	Red Travel Zone
A	Amber Travel Zone
